OBJECTIVE

Passionate and enthusiastic AI & Data Science student with hands-on experience in Machine Learning, Deep Learning, Computer Vision, Generative AI, LLMs, RAG, and data analytics. Skilled in Python, SQL, Scikit-Learn, TensorFlow/Keras and model deployment basics. Eager to apply data-driven and AI-based approaches to build intelligent real-world solutions while continuously improving my technical expertise.

SKILLS AND INTERESTS

Languages & Web: C, Python, R, SQL, HTML, CSS, JavaScript

Libraries/Frameworks: Pandas, NumPy, Matplotlib, Scikit-Learn, PyTorch, TensorFlow/Keras, Flask, FastAPI

Tools, Platforms & AI: Jupyter Notebook, MS Office, Tableau, GCP, AWS EC2, Heroku, Azure, LLMs, RAG Systems

Soft Skills: Data-Driven Decision Making, Leadership, Team Collaboration, Adaptability

EDUCATIONAL QUALIFICATIONS

B Tech (CSE)	2022 - 2026	SRKR Engineering College, Bhimavaram	9.12 CGPA
Honors (Data Science)	2023 - 2026	SRKR Engineering College, Bhimavaram	8.25 CGPA
Intermediate	2020 - 2022	Vignan Co-Operative Junior College, Vadlamudi	97.6%
SSC	2019 - 2020	Narayana English Medium School, Guntur	94.3%

WORK EXPERIENCE

AI & ML Engineer Intern – Blackbucks

DEC 2025 – APR 2026

- Completed a **4-month internship** covering AI & ML foundations, business analytics, Python for data analytics, data preprocessing, feature engineering, regression, classification, clustering, PCA, TensorFlow, Keras, CNNs, RNNs, LSTM, GRU, NLP, reinforcement learning, and model deployment.
- Gained hands-on experience in building, evaluating, optimizing, and presenting end-to-end machine learning and deep learning projects.

ChatGPT, Prompt Engineering & Generative AI Intern – Blackbucks

MAY 2025 – JUL 2025

- Completed a 120 -days Generative AI internship focused on LLMs, ChatGPT architecture, prompt engineering, OpenAI API usage, fine-tuning, GANs, diffusion models, and AI tools for code, speech, and video generation.
- Worked with tools such as ChatGPT, Python, OpenAI API, Hugging Face, GitHub Copilot, and cloud deployment platforms while learning responsible AI practices.

CERTIFICATIONS

- Data Science for Engineers - NPTEL
- Machine Learning with Python - IBM
- Introduction to Data Science with Python - Harvard
- Data Visualization- TATA
- SQL and Relational Databases - IBM
- Gen AI Powered Data Analytics - TATA
- Data Analytics – DELOITTE
- DSA Using Python – NPTEL

PROJECTS

GENERATIVE AI-BASED INTERVIEW PREPARATION CHATBOT

- Developed a full-stack AI-powered interview assistant using Gemini API and NLP techniques to analyze resumes (PDF/DOCX) and generate context-aware interview questions
- Engineered a text processing pipeline using NLTK and Scikit-learn for keyword extraction, semantic matching, and question generation
- Implemented an intelligent answer evaluation system using the STAR methodology and keyword relevance scoring for personalized feedback and candidate assessment
- Technologies:** Python, Gemini API, NLTK, Scikit-learn, NLP, PDF/DOCX Processing

STUDENT ATTENTION MONITORING AND ANALYSIS SYSTEM

- Designed and deployed a real-time computer vision pipeline for student engagement detection using transfer learning (MobileNetV2), achieving 91% validation accuracy
- Engineered a multi-signal fusion system combining CNN predictions with eye-closure and head-pose heuristics, improving robustness over single-model inference
- Optimized inference for CPU-based real-time performance with stable outputs using anti-flicker and no-face handling mechanisms
- Technologies:** Python, TensorFlow/Keras, OpenCV, NumPy, MobileNetV2, Haar Cascades

PARTICIPATION

- Participated in Smart India Hackathon (SIH) 2024, developed an Intrusion Prevention System to detect and mitigate DDoS and DoS attacks using machine learning.
