PROFESSIONAL SUMMARY

Recent Computer Science graduate specializing in Generative AI, Large Language Models (LLMs), Retrieval-Augmented Generation (RAG) and Agentic AI systems. Proficient in Python, LangChain and LangGraph, with hands-on project and internship experience building RAG-based intelligent assistants with vector databases such as FAISS and Pinecone. Eager to contribute this hands-on foundation to a team building scalable, production-grade Generative AI and Agentic AI systems.

SKILLS

Languages: C, Python, SQL, HTML, CSS, JavaScript

Machine Learning: Scikit-learn, NumPy, Pandas, Matplotlib/Seaborn, XGBoost, LightGBM

Deep Learning and NLP: TensorFlow, Keras, PyTorch, CNN, RNN, LSTM, Transformers, Attention Mechanisms, Word Embeddings

Generative AI and LLMs: Generative AI, LLMs, Prompt Engineering, OpenAI API, Gemini API, Hugging Face, LLaMA, Ollama, Groq

RAG and Agentic AI: RAG, LangChain, LangGraph, FAISS, ChromaDB, Pinecone, Hybrid Search, AI Agents, Tool Calling

APIs and Deployment: FastAPI, Streamlit, REST APIs, Uvicorn

Tools and Platforms: Jupyter Notebook, Google Colab, VS Code, Tableau, Docker

Soft Skills: Adaptability, Collaboration, Communication, Analytical Thinking

PROFESSIONAL EXPERIENCE

Blackbucks — AI & ML Engineer Intern

Dec 2025 – Apr 2026

- Engineered end-to-end machine learning pipelines encompassing data preprocessing, feature engineering and PCA, presenting business analytics findings to stakeholders.
- Built and evaluated classification, regression and clustering models, applying core ML foundations across supervised and unsupervised tasks.
- Implemented neural network architectures (CNN, RNN, LSTM, GRU) with TensorFlow and Keras for NLP tasks.

Technologies Used: Python, TensorFlow, Keras, Scikit-Learn, CNN, RNN, LSTM, GRU, PCA

Blackbucks — ChatGPT, Prompt Engineering & Generative AI Intern

May 2025 – Jul 2025

- Orchestrated a 120 hours Generative AI initiative focusing on ChatGPT architecture, diffusion models, and GANs, successfully building automated pipelines integrating OpenAI API and Hugging Face.
- Practiced prompt engineering and fine-tuning techniques, using tools like GitHub Copilot to support code, speech, and video generation workflows.
- Explored deployment of Generative AI applications to cloud platforms with attention to responsible AI practices.

Technologies Used: ChatGPT, OpenAI API, Hugging Face, Diffusion Models, GANs, GitHub Copilot

PROJECTS

Multi-Agent AI Customer Support Assistant with RAG & LLMs

Ongoing

- Developing an AI-powered customer support system combining LLMs, RAG, and multi-agent architecture to classify customer intent and route queries to specialized agents.
- Engineered document ingestion, chunking, embeddings, vector retrieval, conversation memory, and context-aware response generation through LangChain/LangGraph and vector databases.
- Designed specialized agents for billing, technical support, product inquiries, complaints, and FAQs, with Fast API-based APIs and deployment-ready architecture..

Technologies Used: Python, LangChain, LangGraph, LLMs, RAG, Vector Databases, FastAPI, Multi-Agent Systems

RAG-Powered LangGraph Intelligent Assistant

2026

- Developed an intelligent document assistant leveraging LangGraph, RAG, and LLMs to answer user queries from uploaded documents through document processing, text chunking, embeddings, and vector database retrieval.
- Designed an agentic workflow incorporating tool calling and conversational memory, enabling the assistant to dynamically select between document retrieval and tool-based responses.
- Engineered RAG pipelines, LangGraph state-based workflows, agent-tool interaction, and LLM-powered response generation.

Technologies Used: Python, LangGraph, RAG, LLMs, Embeddings, Vector Search, Tool Calling, Agentic Workflows

EDUCATION

Sagi Ramakrishnam Raju Engineering College, Bhimavaram

2022 – 2026

B.Tech in Computer Science and Engineering (9.17 CGPA) | Honors in Data Science (8.30 CGPA)

Vignan Co-Operative Junior College, Vadlamudi

2020 – 2022

Intermediate (97.6%)

Narayana English Medium School, Guntur

2019 – 2020

SSC (94.3%)

CERTIFICATIONS & ACHIEVEMENTS

- Agentic AI Certified Foundations Associate — Oracle University
- Agents Course — Hugging Face
- Data Science for Engineers — NPTEL
- SQL and Relational Databases — IBM
- DSA using Python — NPTEL

PARTICIPATIONS

- Generative AI Mastermind Workshop (Outskill) 🏆 – Gained hands-on expertise in utilizing advanced AI models and driving modern Generative AI workflows.
- Smart India Hackathon (SIH) 2024 🏆 – Developed an Intrusion Prevention System to detect and mitigate DDoS/DoS attacks using ML.
